PT SW1/4 NW1/4 Less PT to State (Tract 134 Ft X 600 Ft) 3-23-1 1.845 AC

Chairman Ohl opened a hearing at 9:05 A.M. Bill Fisher appeared at the hearing and provided testimony on the property. Chairman Ohl read the information from the protest form. Mr. Fisher stated that he met with appraiser a few weeks ago and they discussed his property. He advised that the building was built in the 70's but we purchased the building in 2015 for \$220,000 it also includes a dry storage building in the back. The appraiser set the land value at \$35,110 and the building at \$225,041 for a total adjusted price of \$260,151, which is more in reason. The land value went from \$30,000 to \$160,000 but the size of the property hasn't changed, and the issue is that there is no consistency on the land on this side of the road. He compared Ken's Trailers with his and stating this business has 2 acres at \$30,000 and how did we get to \$160,000 for mine. He advised that four of the approximately 20 properties in this area went off the charts in values. The only similarity would be The Truck Center, Jerry's Campers, and B & B Cycle is that these business sale product in front of their stores. And I know that the county's needs to make money, and they have these evaluations sorted out but \$265,000 is a lot less the \$399,000 and my property is not worth that amount. Furthermore, you need to remember that in the past 5 years the sewer was run and all these property owners on the east side were assessed anywhere from \$10,000 to \$12,000. Now, the City of Norfolk is talking about running water through this area which will be another \$15,000 that I will be responsible for. He stated that at which time, for a prospective buyer, sees that there is \$20,000 worth of assessment against the property a person must consider that the assessments are factored into the price. The frontage road isn't paved and each of the property owners are responsible for the upkeep. Chairman Ohl closed the hearing at 9:21 A.M. County Assessor Jeff Hackerott recommended that the board consideration given to the revised valuation based upon a physical inspection of the property. Motion was made by Uhlir and seconded by Schmidt to set the 2020 Property Valuation at \$260,151. Roll call vote: Ayes, Schmidt, Ohl, and Uhlir. Nays, none. Motion carried.

County Assessor Jeff Hackerott indicated that most of the old records show that most homes were built in the 1910, 1920, or 1930's but rarely do you find a home built in an odd number like 1923 or 1927. Most of this data was collected by someone and wrote down what the homeowner said that the property and when it was built. He indicated that he would need to come out to this location, walk around, take pictures, make sure the house is listed correctly, get the correct number of bins and building so the assessor's office has your information correct. Protest #2020-91: Jared and Julie Faltys, 3300 West Eisenhower Avenue, Norfolk  
M R B Addition Lot 1 10.69 Ac (8-24-1)

Chairman Ohl opened a hearing at 10:49 A.M. Jared Faltys appeared at the hearing and provided testimony on the property. Chairman Ohl read the information from the protest form. Jared Faltys began his testimony stating that he wanted to be fair and reasonable. He inquired what the county feels is a fair market value. I am not comparing neighbors but looking at comparable of what fair market value is. As of right now there has been no sale of the MLS for over a million dollars, and the highest one is Dr. Smith's home that sold for \$765,000 with a swimming pool and 3 acres compared to my 10 acres. If you look back out the property values for 40 acre so if you back out the property value of 40 acres minus the 10 acres the 30 acres difference on my comparable sheet with my property, I think that \$765,000 number is what I consider fair and reasonable based on comparable, and that's over a two and half year period. County Assessor Jeff Hackerott advised that an appointment to review and inspect property since the assessor's office doesn't have any of the measurements on the shouse and what was entered is like a blanket got plugged in the program and generated a number. Mr. Hackerott called to schedule an appointment but due to the fact it is your busy season. Mr. Faltys advised that the assessor's office should have the prints that were forwarded. Mr. Hackerott stated that he did not have the prints and only had the construction account balances so therefore we should get together after the 15th of July, which is a tax deadline. I am curious, even if you do visit the Taj Mahal, and I'm not seeing desserts. Does not matter, because really is that the top dollar for Madison County is \$765,000, and as far as I'm concerned is over the last three years. I could build an amusement park on this property or whatever you want but the fact is that the market value cannot handle over \$700,000. Commissioner Uhlir asked Mr. Faltys if he would take \$765,000 for his home and he stated that the home was not for sale and if there was a property that sold for 1 million there would be a comparable.

Commissioner Uhlir asked that if the property was 2 million it should be work \$765,000 because of your theory. Mr. Faltys answered that is all the market could afford. Chairman Ohl closed the hearing at 10:54 A.M. County Assessor Jeff Hackerott recommended tabling the protest to conduct a physical inspection. Motion was made by Uhlir and seconded by Schmidt to table protest #2020-91. Roll call vote: Ayes, Schmidt, Ohl, and Uhlir. Nays, none. Motion carried.

Both of us have review three of these properties and are comparable with the same square footage and similar condition within our neighborhood. The square footage runs from \$69 to \$84 per square foot and our homes assessment last year was \$93 and proposed to go to \$100 this year. He stated that another year it will be another \$20,000 then another \$20,000 and at this point, we have reach past the market value. They stated that the home on Mach I was the most comparable to our with similar upgrades, bedrooms on the second floor, and current is valued at \$69 a square foot but we are not asking to go down to that but would be open if the board would decide that.
